

DeMarquis McMillan

Software Engineer | Full-Stack | Backend | Systems

Pensacola, FL | dmmcmillan2018@gmail.com | (251) 727-1865 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | Open to Relocation & Remote

PROFESSIONAL SUMMARY

Software Engineer with hands on experience taking software from architecture through **testing, deployment, and production maintenance**. Built a live AI powered SaaS platform with **Java, Spring Boot, React, MySQL, Docker, and GitHub Actions CI/CD**, complemented by C++ systems, networking, and data processing projects. Strong foundation in REST APIs, secure authentication, automated testing, Linux, and object oriented design.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, Python, C++, HTML, CSS

Backend: Spring Boot, Spring Security, Spring Data JPA, Hibernate, **REST APIs, JWT Authentication**, Maven, **Node.js, Express**

Frontend: React, Vite, React Router, Tailwind CSS

Cloud & DevOps: Docker, **GitHub Actions, CI/CD Pipelines**, Vercel, Render, Railway

Testing: JUnit 5, Mockito, MockMvc, Vitest, **React Testing Library**

Engineering: Object Oriented Programming, Data Structures & Algorithms, **Multithreading, Client-Server Architecture**, MVC

Tools & AI: Git, GitHub, Linux, Postman, IntelliJ IDEA, VS Code, **OpenAI API, libcurl**

EDUCATION

University of West Florida | **B.S. Computer Science** | December 2025 | **President's Honor Roll**

PROJECTS

CogniHaven - Production AI-Powered Cognitive Wellness SaaS Platform | [GitHub](#) | [Live Demo](#)

- Architected and launched **15+ integrated production modules** with **Java, Spring Boot, React, MySQL, and Docker**, deploying the live platform across Render, Railway, and Vercel and continuing to maintain it in production.
- **Connected contextual AI workflows** through the **OpenAI API** alongside Spring Security, JWT authentication, protected REST APIs, analytics, and scheduled background services.
- **Established CI/CD and automated quality gates** with **30 frontend and backend tests** using JUnit 5, Mockito, MockMvc, Vitest, React Testing Library, and GitHub Actions.

Munchify - Full Stack Recipe Sharing Platform | [GitHub](#)

- **Designed REST APIs and a normalized relational data model** with **Node.js, Express, and MySQL** to support secure CRUD operations and persistent recipe and user data.
- **Secured accounts and protected endpoints** through **JWT authentication and bcrypt password hashing**, while organizing routing, middleware, and database access into maintainable backend components.

Weather Subscription Application - C++ Client Server System | [GitHub](#)

- **Built a multithreaded client server application** using **C++, TCP sockets, mutex synchronization, and Linux** to coordinate concurrent users and stateful network communication.
- **Delivered authentication, subscription management, direct and group messaging, and recent-message retrieval** while managing sessions, socket connections, and concurrent access to shared state.

Stock & Housing Price Predictor | [GitHub](#)

- **Created a C++ data processing pipeline** that consumes financial APIs and CSV datasets through **libcurl** and applies linear regression to stock and housing data.
- **Strengthened prediction reliability** by parsing structured inputs, rejecting malformed records, and validating data before numerical calculations.

EXPERIENCE

Walmart - ATC / Team Lead Responsibilities | May 2020 - Present

- **Served as acting team lead** during management absences, coordinating daily operations and training associates in a high volume environment.
- **Balanced full time employment** while earning a B.S. in Computer Science and independently building and maintaining a production SaaS platform.

DoorDash - Delivery Driver | June 2023 - Present

- **Maintained reliable, time sensitive customer service** while balancing employment, academic commitments, and independent software engineering projects.

LEADERSHIP & COMMUNITY

Football Team Captain | Track Team Captain | Class Representative | Boy Scouts | Football Camp Mentor | Peer Helper | Operation Santa Claus | Backpack Buddies | Animal Shelter Volunteer | AHSAA Sportsmanship Award
